

INDEX OF AUTHORS TO VOL. LVIII

- Bath, J. C. J. L.**, Pneumonia in Hospital Practice in Edinburgh, 1960-1962, 1
- Billiet, L.**, Pulmonary Alveolar Microlithiasis, 31
- Boissard, G. P. B.**, Pneumonia in Hospital Practice in Edinburgh, 1960-1962, 1
- Boyd, J. F.**, An attempt to determine the Background to Pulmonary Tuberculosis in Adolescent Males, 17
- Bruyns, C.**, Dibenzheptopine Citrate ("Brontina")—A Double Blind Trial in Chronic Chest Diseases, 135
- Calder, Margaret A.**, Pneumonia in Hospital Practice in Edinburgh, 1960-1962, 1
- Cameron, E. A.**, Multiple Primary Bronchial Carcinoma: Report of Two Cases and a Review, 181
- Campbell, A.**, Widening of the Membranous Wall and Flattening of the Trachea and Main Bronchi, 56
- Campbell, E. J. M.**, Oxygen Therapy in Diseases of the Chest, 149
- Capel, L. H.**, A Bronchitis Registry in East London; A Report on the First Year's Work: Part I. Establishment of the Registry and Clinical Findings, 97
- Part II. The Social Findings, 112
- Capel, L. H.**, Spirometric Integrals after Isoprenaline and Atropine in Asthma, 174
- Caplin, M.**, A Bronchitis Registry in East London; A Report on the First Year's Work. Part I. Establishment of the Registry and Clinical Findings, 97
- Part II. The Social Findings, 112
- Citron, K. M.**, An Investigation of Asthma among the Tristan da Cunha Islanders, 119
- Dahl, Sven**, Letter to the Editor, 42
- Ellis, R. H.**, Disease of the Right Middle Lobe in Pneumoconiosis, 169
- Fahmy, Abdel Rahman**, Fibroma of the Pleura, 141
- Fletcher, E. C.**, Spirometric Integrals after Isoprenaline and Atropine in Asthma, 174
- Gomaa, Taha M.**, Fibroma of the Pleura, 141
- Helgason, T.**, Iodides, Goitre and Myxoedema in Chronic Respiratory Disorders, 73
- Hopkinson, W. I.**, Infective Gangrene Surrounding an Empyema Wound Treated with Hyperbaric Oxygen, 198
- Horton, E. H.**, Unusual Thoracic Deposits, 201
- Islam, N.**, Pulmonary Tuberculosis in East Pakistan, 36
- Kwong, K. H.**, Carcinoma of the Bronchus in Young Adults, 124
- Lauweryns, J.**, Pulmonary Alveolar Microlithiasis, 31
- Lebacqz, E.**, Pulmonary Alveolar Microlithiasis, 31
- Liddelow, H. G.**, Widening of the Membranous Wall and Flattening of the Trachea and Main Bronchi, 56
- McNichol, Martin W.**, Dibenzheptopine Citrate ("Brontina")—A Double Blind Trial in Chronic Chest Diseases, 135
- Moffat, Margaret A. J.**, Pneumonia in Hospital Practice in Edinburgh, 1960-1962, 1
- Moon, A. J.**, Infective Gangrene Surrounding an Empyema Wound Treated with Hyperbaric Oxygen, 198
- Muftic, Mahmoud K.**, Quantitative Analysis of the Neutral Red Test in Mycobacteria, 85
- Neumann, Gerhard**, Letter to the Editor, 94
- Pepys, J.**, An Investigation of Asthma among the Tristan da Cunha Islanders, 119
- Percy, S. J.**, Multiple Primary Bronchial Carcinoma: Report of Two Cases and a Review, 181
- Ponnampalam, J. T.**, Histoplasmosis in Malaya, 49
- Reid, Lynne**, The Role of Alveolar Hypoplasia in Some Types of Emphysema, 158
- Robson, A. O.**, Massive Bleeding Complicating Pneumothorax, 90
- Saha, D.**, Parietal Pleurectomy for Prevention of Recurrent Spontaneous Pneumothorax, 78
- Salm, R.**, Primary Squamous Cell Carcinoma of the Trachea: Report of a Case, 92
- Salm, R.**, Primary Carcinoma of the Trachea: A Review, 61
- Scadding, J. G.**, Letter to the Editor, 42
- Simon, G.**, The Role of Alveolar Hypoplasia in Some Types of Emphysema, 158
- Slade, P. R.**, Carcinoma of the Bronchus in Young Adults, 124
- Stack, B. H. R.**, Bronchial Carcinoma Presenting with a Solitary Skin Metastasis, 131
- Tuncman, Semih M.**, Quantitative Analysis of the Neutral Red Test in Mycobacteria, 85
- Watson, A. J.**, Multiple Primary Bronchial Carcinoma: Report of Two Cases and a Review, 181
- Weaver, J. P. A.**, Massive Bleeding Complicating Pneumothorax, 90
- Wheeler, W. F.**, A Bronchitis Registry in East London; A Report on the First Year's Work: Part I. Establishment of the Registry and Clinical Findings, 97
- Part II. The Social Findings, 112
- Williams, K. G.**, Infective Gangrene Surrounding an Empyema Wound Treated with Hyperbaric Oxygen, 198
